

MEVLÜT CAN DAĞ

Full Stack Developer

mevlutcandag.com

EXPERIENCE

- **Freelance Full Stack Developer (June 2026 – September 2026):** Built portals, CRM, and ERP systems with Laravel; set up and tuned Coolify servers on a Hetzner VPS.
- **Frontend Developer – Aqtivite (July 2025 – June 2026):** Built v2 of the interface from scratch, replacing v1, and led the process; reusable composables significantly reduced code duplication. Migrated the app from web to iOS and Android (3 platforms); built the promo sites (about, link.aqt.im).
- **Frontend Developer – CrossWeb Yazılım (2024 – 2025):** Built mobile-responsive UI features and API-integrated modules for Diltera (DKT CRM) with Vue.js and Nuxt.js.

PROJECTS

- **VetRota:** Led the full build of an offline-first field management platform for traveling vets, solo: Laravel API, Nuxt web panel, Flutter mobile app, UI/UX and brand.
- **Diltera:** CRM for speech and language therapists covering appointments, client records, and session history.

EDUCATION

- **Bachelor's Degree in Computer Engineering – Pamukkale University (2021 – 2025)**

ABOUT ME

I enjoy owning a product from the first screen to the server it runs on. Start-up work taught me to take initiative, and I value clean, simple code that others can read. I pick up new tools quickly and work well in a team.

SKILLS

Frontend: Vue 3, Nuxt.js, React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML, CSS

Backend: Laravel, REST API

Databases: MySQL, PostgreSQL, MongoDB

Mobile: Flutter, iOS & Android
